

# Share the risk with **Cargill MarketGuard™**

You spend your year planning, producing and marketing your crop. But no matter what you do some things are out of your control. Like growing conditions. The uncertainty can hold you back from meeting your profit potential.

If only you weren't concerned about crop failure, you may have pulled the trigger on a grain contract before harvest and locked in a more favorable futures price for your canola.

## **Worry no more.**

With Cargill MarketGuard you can add market risk protection to your canola crop, giving you the confidence to forward contract and take advantage of seasonal highs.

No obligation to deliver and no contract buyout costs for eligible tonnes in the event of crop loss. You buy the seed you want and contract how and when you want. Cargill shares the risk.

## **How it works**

Book commodity canola seed for crop year 2025 with Cargill and add Cargill MarketGuard prior to invoicing.

- Eligible for 10 bu/ac Cargill MarketGuard production if purchase less than 48 bags.
- Eligible for 15 bu/ac Cargill MarketGuard production if purchase is 48+ bags.

Enroll in Cargill Power Canola™ for crop year 2025.

Establish a merchandising contract by July 15, 2025, and utilize the benefits of Cargill MarketGuard. If a weather event or crop loss occurs, provide notice to Cargill within 48 hours. A Cargill representative will inspect the affected fields.

Once your claim is approved, Cargill absorbs the contract buyout cost (cancellation cost + futures spread) and you are not obligated to deliver against those contracts.

## What you need to know

- Cargill MarketGuard will apply to first delivery period tonnes in the 2025 crop year. Cargill MarketGuard obligations will be satisfied from whole farm 2025 canola production and is not restricted to fields where Cargill retail seed is grown.
- Cargill MarketGuard is not a canola quality program. If delivered canola does not meet spec, delivery is still required or contract cancellations costs apply as normal.
- Cargill MarketGuard can be used with all commodity canola hybrids and delivery months in 2025 crop year. However, this offer cannot be combined with Victory Canola Program seed purchases to increase tiers of risk-free / Cargill MarketGuard tonnage for either program.
- Conversion of 10 acres/bag will be used to calculate eligible Cargill MarketGuard tonnage.
- In the event of a weather event or crop loss, Cargill reserves the right to request crop insurance documentation.
- The claim deadline for Cargill MarketGuard is October 31, 2025.
- Cargill MarketGuard is a limited time offer and can be pulled at any time.

**Contact your Cargill representative if you'd like us to share the risk with you.**
